

## Pin talk - Germany

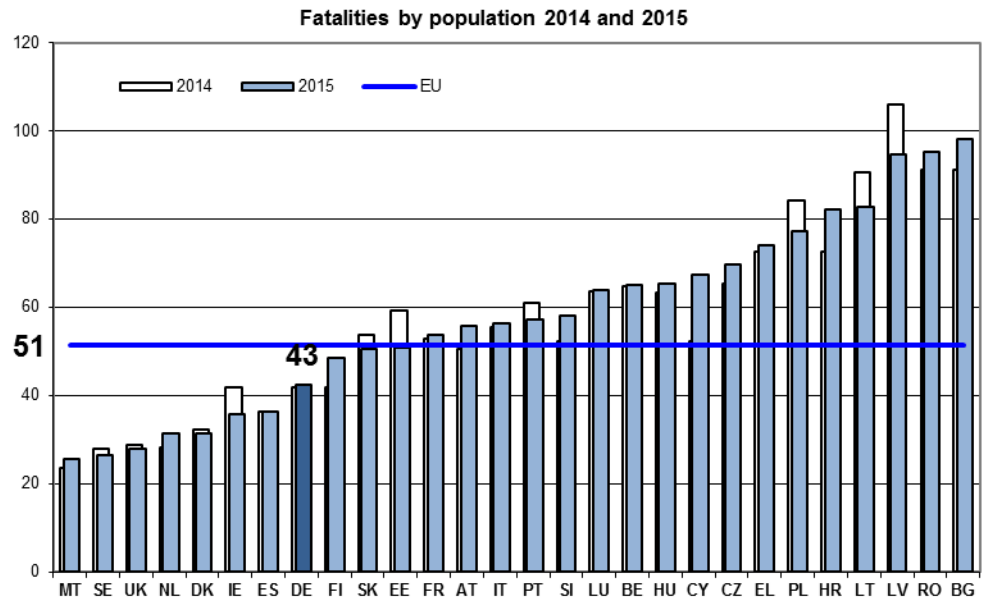

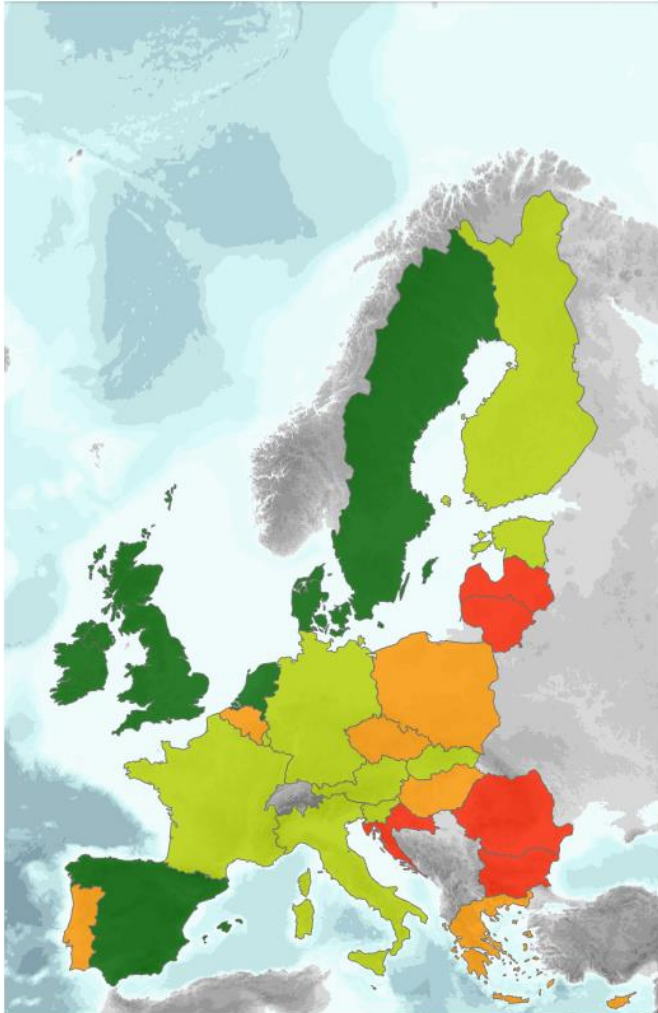

**24 November 2016**

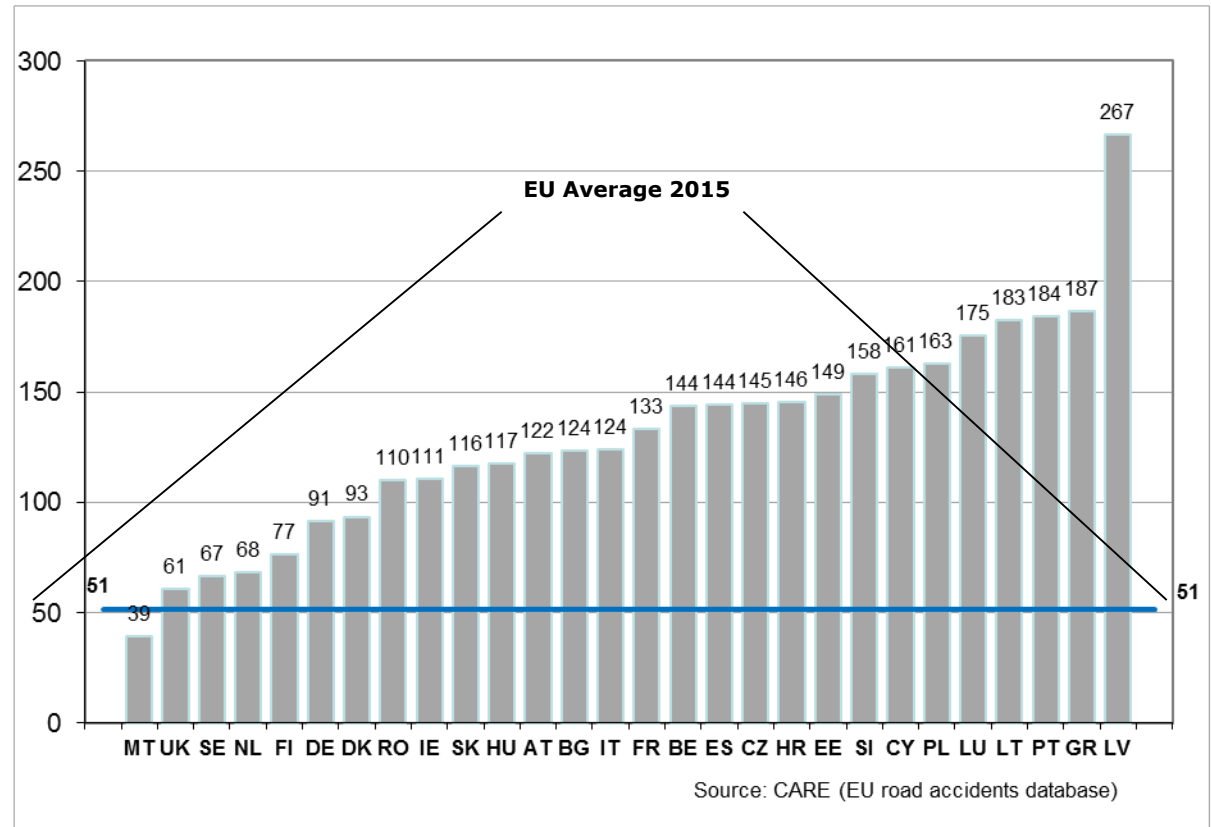

**Sabine AMIRDSCHANJAN**

**European Commission**

# Fatality rates 2015

# Fatality rates 2000 (deaths/million inhabitants)

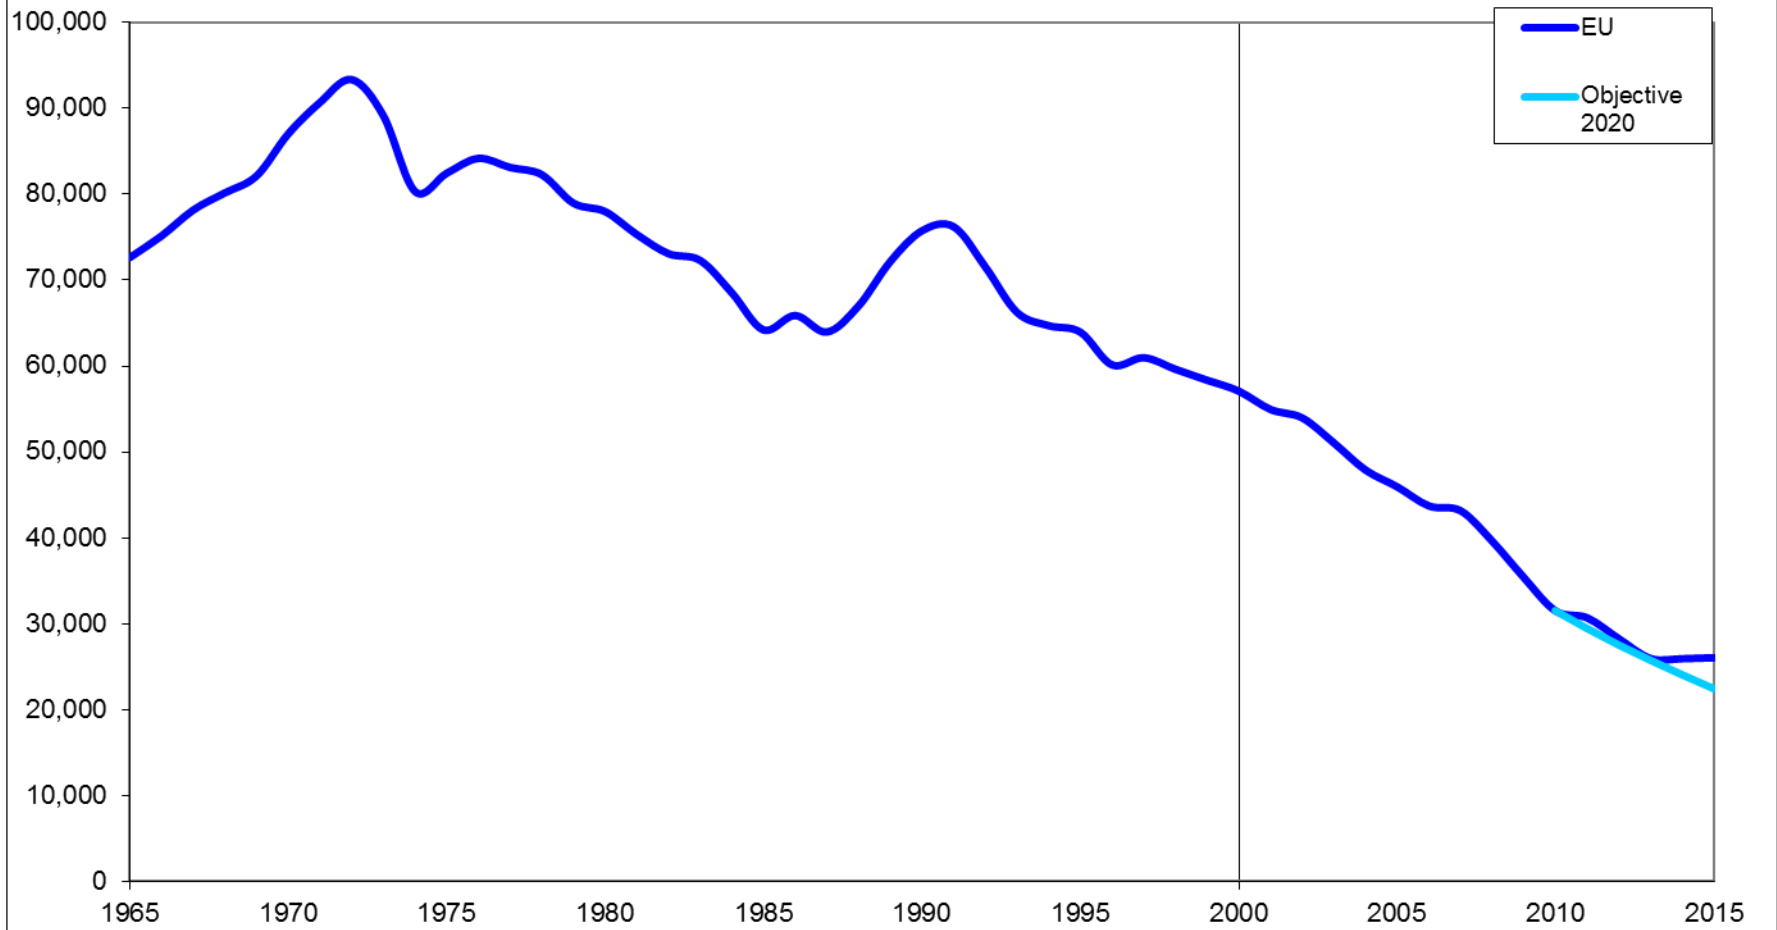

# Contributing factors

- **making road safety a political**
- **cooperation across borders for a European road safety area**
- **adoption of target setting**
- **continuous monitoring of results**
- **education and awareness campaigns**

# Main achievements

- **Legislation on type-approval and on technical inspections of vehicles**
- **Legislation on seat belts**
- **Legislation on infrastructure safety management**
- **The legislation on cross-border enforcement**
- **The collection of accidents data using the same definitions and methodology across the EU**

### EU Fatalities 1965 - 2010

# WHITE PAPER 2011: Towards a 'zero-vision' on road safety

# POLICY ORIENTATIONS ON ROAD SAFETY 2011 - 2020

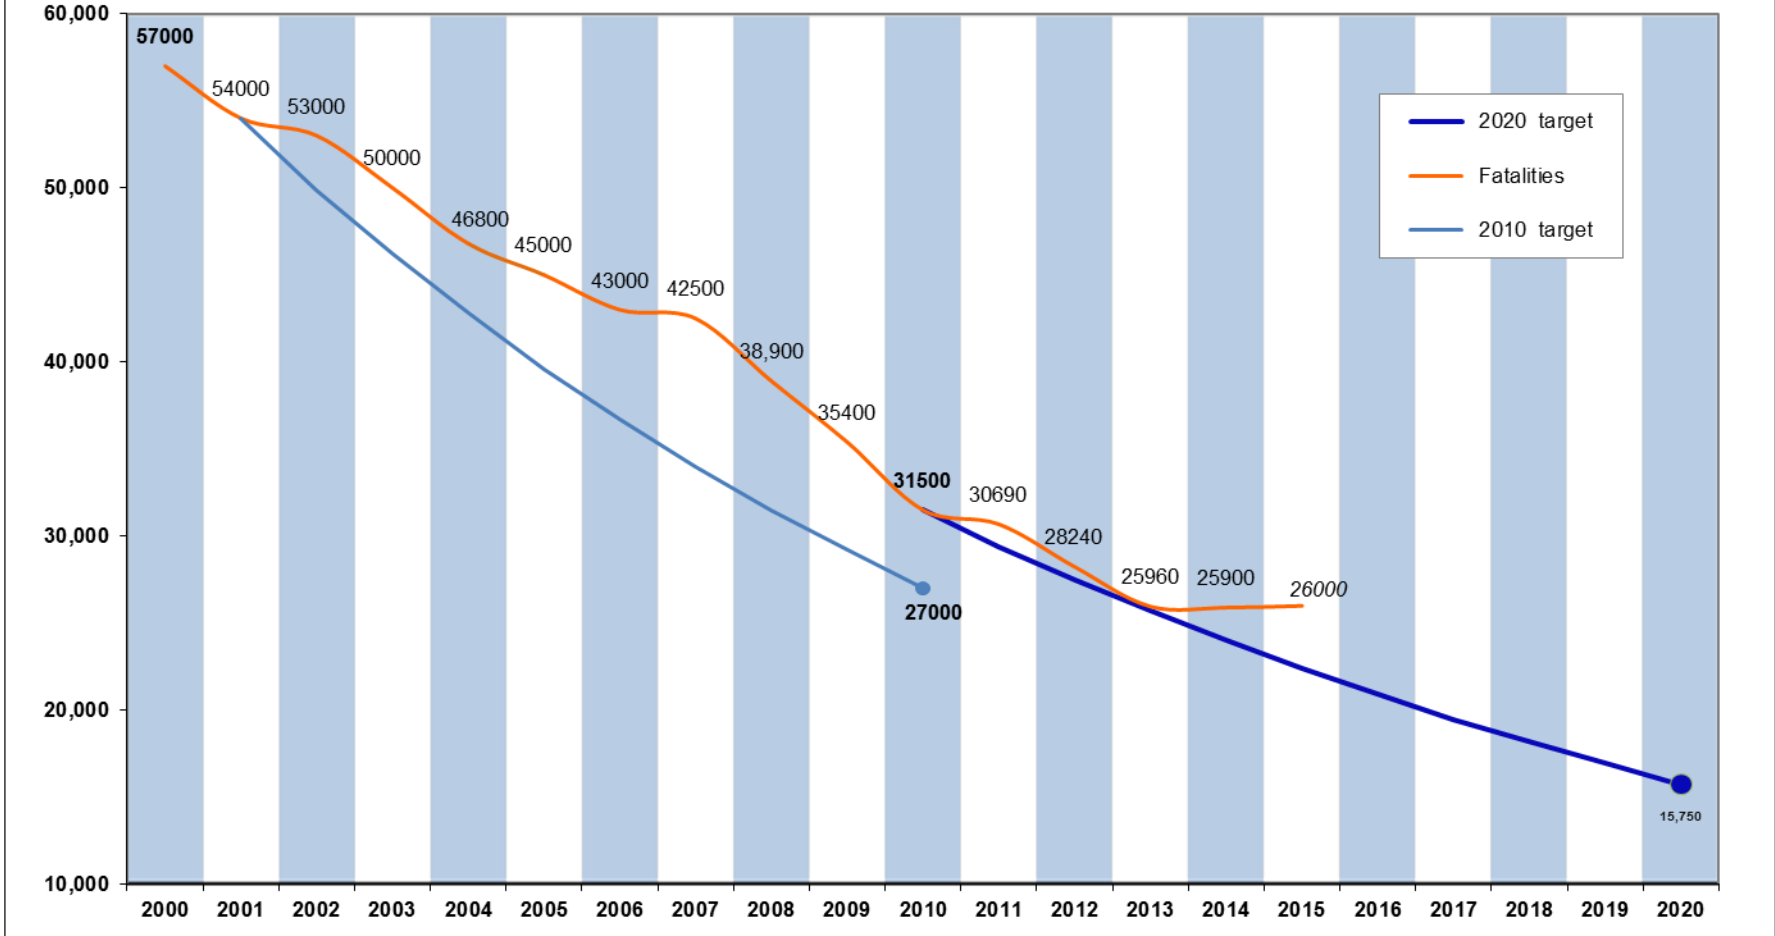

# The “-50%” objective

- ***A political & global commitment***
- ***- 43% achieved ( 2001 – 2010)***
- ***- 17% achieved ( 2010 – 2015)***

### EU fatalities and targets 2010 - 2020

# EU target of halving the number of road deaths by 2020

- ***Extremely challenging***
- ***New technologies can contribute***
- ***Road users behaviour will continue to be central***
- ***Exchange of good practices between all road safety actors***
