CARE IN EUROPE

SAFE & SOBER

The 5 pillars of road safety

1. Road safety management
2. Infrastructure
3. Safe vehicles
4. Road user behaviour
5. Post collision care

Scope of the project

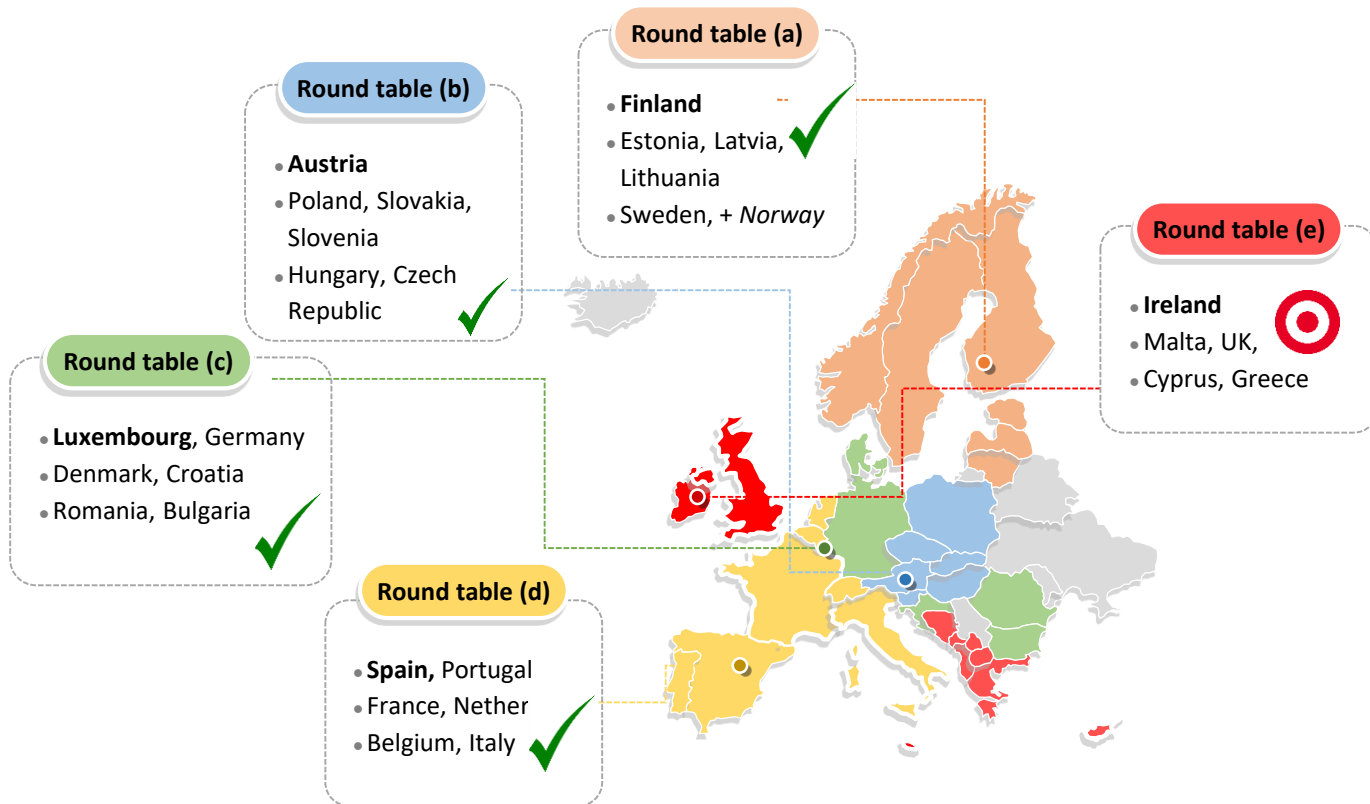

- REVIVE Project is focused on the **emergency/rescue chain**: from the moment a road collision occurred until the injured person is transferred to a medical facility;
- Objective: **Improvements** in emergency response can help prevent deaths and **life-changing injuries in road collisions**;
- The emergency response is not getting a fair share of attention in terms of research, good practice exchange and measures.
- **Improvements are being made, but collisions still occur**
- Project sponsor: **TOYOTA**

Main deliverables

- 5 country round tables in 5 regions of Europe covering the EU28;
- 5 case studies outlining best practice examples in post collision care;
- A Synthesis Report for experts and policy makers;
- Advocacy work in advising national and EU decision makers on post collision care;
- A video reportage explaining the importance of efficient post-collision care when saving lives;
- A final international conference in Brussels in 2019.

Round table discussions

ETSC REVIVE Advocacy

- **Valletta Declaration** adopted in March by informal ministerial meeting and formally approved in June 2017 by the Council.
- Setting a target to **half serious road traffic injuries between 2020-2030** based on 2020 figures.
- In the declaration, the ministers promise to ensure deployment of eCall and reduce response time.

How can you get engaged

- **Monitor good practices and challenges** in post-collision response and let us know.
- **Share your position/** recommendations/ events/ training opportunities on post-collision response.
- **Tell us** about changes in your national legislation, new studies, **research** etc.
- For more details please contact ETSC REVIVE Project Officer **Laurence Atchison** la@etsc.eu
- Updates can be found at www.etsc.eu/revive
