

PRAISE CONFERENCE

Preventing Road Accidents and Injuries for the Safety of Employees

Wednesday 17th October 2018, 09:30 -15:00
Renaissance Hotel, Rue du Parnasse 19, 1050 Brussels

The European Transport Safety Council (ETSC) has the pleasure of welcoming you to the 8th Annual European PRAISE Conference on work-related road safety.

Using the roads is a necessary part of our working lives. But it's an ordinary activity that leads to an incredibly high level of injury and death. It is estimated that in Europe six out of ten work accidents resulting in death are road collisions, including both crashes while driving for work and commuting crashes (Eurogip). Also, according to the European Commission, road traffic collisions may account for up to 40% of incidents at work resulting in death. The PRAISE project addresses the safety aspects of driving at work and driving to work.

The conference brings together fleet safety managers, EU institutions, government representatives, and road safety experts to discuss the latest developments and priorities in work related road safety. The winners of the ETSC PRAISE awards 2018 will also be announced.

The program includes contributions from leading occupational health and safety experts and will feature a presentation of ETSC's latest report on Fleet Telematics and a discussion on bus safety.

The PRAISE Project is co-ordinated by the ETSC secretariat with the support of:

Dräger Foundation

Fundación
MAPFRE

AGENDA

09.00 Registration and Coffee

09:30 Welcome by Professor Herman De Croo, ETSC President
