

PRAISE - Preventing Road Accidents and Injuries for the Safety of Employees

Seminar: Identify, Evaluate and Prevent Occupational Road Risks Wednesday 25 June 2014, 09:00-14:00

Belgian Road Safety Institute (IBSR/BIVV), Chaussée de Haecht 1405, 1130 Brussels, Belgium

The European Transport Safety Council (ETSC) and the Belgian Road Safety Institute (IBSR/BIVV) have the pleasure of inviting you to the first PRAISE National seminar.

In 2014 ETSC re-launched the project "Preventing Road Accidents and Injuries for the Safety of Employees" (PRAISE) to increase road safety in the work context. The project was co-funded by the European Commission, and is now supported by the Fundació MAPFRE, the German Road Safety Council (DVR), the Belgian Road Safety Institute (IBSR/BIVV) and the Dräger Foundation. The PRAISE project aims to "praise" best practices in order to help employers secure high road safety standards for their employees. In the framework of this campaign, ETSC is organising a series of seminars in selected Member States bringing together companies, fleet safety managers, government, and road safety experts.

Building on the success of previous PRAISE National seminars held in more than 10 EU countries, ETSC is organising its first Belgian PRAISE seminar to promote best practices of companies in specific work related areas. In co-operation with the Belgian Road Safety Institute, the PRAISE seminar will be held on Wednesday 25th June in Brussels.

On the agenda will be measures to improve work related road safety in Belgium and in other EU Member States. Interpretation English/Dutch/French will be provided.

To register, please contact:

Ilyas Daoud, ETSC, Project Manager, Ilyas.Daoud@etsc.eu, Tel.: +32 2 230 41 06.
