

Alcohol interlocks and the fight against drink-driving A European approach, Vienna

**Friday 30 January 2015
9am – 1pm**

**Austrian Ministry of Transport, Innovation and Technology (bmvit)
Room EA08, Radetzkystr. 2, 1030 Vienna**

The European Transport Safety Council, the Austrian Ministry of Transport Innovation and Technology and the Austrian Road Safety Board (KFV) have the pleasure of inviting you to a round-table event in Vienna on a holistic approach to addressing alcohol misuse in road transport.

The event will cover measures to tackle drink driving such as the use of alcohol interlocks, research findings and case studies from EU member states. A round-table discussion offers participants the opportunity to talk to experts and exchange experiences and successes with the use of alcohol interlocks.

Participation is free but seats are limited.

Online registration by Thursday 22nd January 2015 [here](#).

For further information, please contact:
Ilyas Daoud, ilyas.daoud@etsc.eu

Interpretation German / English will be provided.
